WHY DO WE NEED ANOTHER CURRENCY?

SAGA - GLOBAL DIGITAL CURRENCY

Money is changing. Digital currencies attempts to improve money, generating both promise and challenge:

The Saga currency aims to address public policy concerns by this rapid change.

Saga does not seek to replace existing currencies, but to complement them and work with the financial system. Non anonymous and reserve backed, Saga is supported by global subject matter leaders.

THE UNMET PROMISE OF DIGITAL CURRENCIES

Despite their immense promise, so far no Blockchain-based project meets the three basic requirements for a functional currency:

Store of Value

Means of Exchange

Unit of Account

THREE PILLARS OF SAGA'S CURRENCY

Knowledge

Assembled a team of world leaders, combining expertise from several fields - Economics, Mathematics, Human and Social Sciences

Identity

Saga is the first non-anonymous digital currency, with a formal KYC banking process for every participant

Balancing Stability & Growth

Saga deploys a mathematical model, implementing a variable fractional reserve allowing prospect of growth
