## GLOBAL ALLIANCE OF LEADERS: HOW TO AVOID A NUCLEAR WAR?

---

Humanity seems closer to a nuclear disaster than ever before. The military conflict between Russia and Ukraine, the unresolved regional tensions in the Middle East, the unsettled issue of the denuclearization of the Korean Peninsula, and the difficulties in resuming the Joint Comprehensive Plan of Action (JCPOA) are the critical issues of the global agenda to be addressed in this session. We will solicit perspectives not only of political leaders but also experts and members of civil society. Is the world ready to stand together against the common enemy: wars, poverty, and injustice? What is the way out of the conflict over Ukraine? And how can we avoid a catastrophe?

This session is organized in partnership with the **Institute of World Economics and Politics** and the **Astana Club Dialogue Platform**.
